

S U S P E N D E D   C E I L I N G   T I L E S

What is among the main reasons of creating a false or a suspended ceiling structure? To prevent the heat and to help air conditioning systems, isn't it?  
Also, don't you need eye catching look, vivid colors and designs in ceiling tiles then just plain – boring old white?

Presenting, first time in India - a ceiling tile that insulates using the best material – PU foam.  
Also, it is available in wide variety of colors, finishes and designs.  
Now, give wings to your imagination !!!
